

Postdoc position at TU/Eindhoven

Operations Planning Accounting & Control group

With Tom van Woensel and Albert Schrotenboer

Tom van Woensel and Albert Schrotenboer are looking for a **postdoctoral researcher** (2-3 years) in a fascinating research project in which multiple logistics service providers are jointly setting up a distribution and consolidation network for **freight transport**.

We are looking for candidates with a PhD in Operations Research, Computer Science, Transportation Science, Industrial Engineering etc. We also accept applications from candidates that are near completion of their PhD (the starting date is flexible, as is the duration).

The preferred starting date is September 1, 2024, onwards. Affinity with programming and the ability to learn (or experience with) integrating planning algorithms with IT systems (with support) is a must.

If you are interested or have additional questions, please email Tom van Woensel (t.v.woensel@tue.nl) or Albert Schrotenboer (a.h.schrotenboer@tue.nl).

Kind regards,

Dr. Albert Schrotenboer

Assistant Professor | Eindhoven University of Technology
Research Director | European Supply Chain Forum
